: Sorry about that little misunderstanding, though perhaps there's a
: Sirius/c planet that's somewhat cloaked like Venus having ice-ages,
: though that's not what I meant.

Sirius as a "B" component, a white dwarf.

: In the future I'll try harder to use fewer words and to use those more
: correctly.

Well the political diatribe is sort of like preaching to the choir.
Anyway, I'm finding myself bored with politics these days and looking
forward to getting more back into science and technology.

: Sometimes it helps if you read my somewhat Klingon syntax from the
: bottom up, as half the time I'm within my usual dyslexic encryption mode
: without realizing it.

I dunno. You're more like a boxer that needs to be turned into the
direction of the opponent rather than just blindly swinging at everyone
from folks on your bench and the referee.

Eric
