A series of very nice photos of the preparation and launch of Soyuz FG/Fregat ST-14 with ESA's Venus Express are at the following web site:

["http://sci.esa.int/science-e/www/object/index.cfm?fobjectid=31141&farchive_objectypeid=18&farchive_objectid=3"](http://sci.esa.int/science-e/www/object/index.cfm?fobjectid=31141&farchive_objectypeid=18&farchive_objectid=3)

These are probably the best R-7 launch photos I've seen.
