Roy,

That you think I am defending privilege says it all. LOL. You're a damned socialist or worse, and you're arguing out of your ass.

If anyone can participate in a free and open market, giving folks the ability to own private property in no way creates privileged castes.

And, that you think a working interest spreads risk and that's it, shows you are shuttered in your view of things to protect your flawed socialist paradigm.

Bill.

.
