Pat, I'm from Indiana. I *am* a native American.

Wouldn't that make you an Indian?
White man STEAL Indiana, and not even change name.

My ancestors got off the
boat sometime in the 1600s from Germany.

Damn British--paid Hessians... I knew it!

That doesn't make *me* a German
anything, anymore than the Rev. Al Sharpton is an African anything, just
because his ancestors got off a boat from Africa.

Write "Lousy Hessian Merc!" on him with a Magic Marker... stick him in a
bag full of Dachshund crap!

I've only met two *African*--Americans, both were white immigrants from
South
Africa who kept their SA citizenship.

Write "Lousy British--Controlled Boer Boys!" on them with a Magic Marker!
Stick 'em in a bag full of Aardvark crap! :-)

Hey pat are you showing disrespect for yourself by acting just like

Re: Genocide

rand has here on this thread, as he has chosen to abdicate his responsibility, do you so want to dishonor your self by continuing to act like you have in the above post.

But it is your choice to lower usenet to your standards of belligerence and disregard for civil discussion, or can you act like a responsible adult and just and try yourself to find a solution to the Darfur issue, as it is nobody else's honor integrity, and self respect here except yours, (well and rands of course, but those are his actions not yours)....
