On Thu, 1 Jan 2009 13:24:19 -0800 (PST), in a place far, far away, mariam <st.mariam1@xxxxxxxxxx> made the phosphor on my monitor glow in such a way as to indicate that:

Slain in Israel Gaza Strikes 210

Score of Gaza civilians were killed and wounded in the strikes.
(Reuters)

GAZA STRIP ? Israeli warplanes mounted on Saturday, December 27, a series of strikes against scores of targets in the besieged Gaza Strip, killing at least 210 people and wounding hundreds others.

Most of whom weren't "civilians," but Hamas terrorists and their family members.

When you stupidly make war on a technologically superior foe, this is what you get. In fact, Israel is risking its own civilian population to minimize casualties in Gaza.
