<snip>

this: "If you mean-centred your variables, then the correlation will go away." Again, falsifiable.

It's not only falsifiable, it is FALSE.

OK, prove it.

Then you would NOT have an intercept, you IDIOT!

The keyword is

"if you mean-centered your variables" ALL the variables.

No more FREE lessons, Anon Bob.

Why didn't you trim your obnoxiously ANTI-NETIQUETTE 11-line sig?
