I invite everyone to ask for a MODERATION TEAM to check the answers in order Sci. Stat. Math. usefulness and quality be improved

Luis

Are you suggesting making the NG moderated? As far as I know, it is not possible to get unmoderated → moderated, but the other way is possible.

I personally think moderated newsgroups are a bad thing. I find the Mathematica one very annoying

a) Things take a while to get posted.

b) The moderator is rather biased in favor of Mathematica, so criticisms tend to go to /dev/null.

I'm not convinced moderation achieves much useful myself.
